1. Allow two weeks for your serum to be made. You should call before coming in for your first injection.
2. Avoid vigorous exercise 1 hour before or 2 hours after an allergy injection.
3. Avoid getting an allergy injection if you have an active illness or a fever.
4. Avoid getting an allergy injection if you have active asthma.
5. Allergy injections cannot be given on the same day as any other service.

If you have any questions, please do not hesitate to call us.
